Professional Experience

Intern

03/2023 to 06/2023

Charitag Inc. – 518A, Leroyer Street, Saint-Lambert QC J4R 1M6, Ca

- Coded using HTML, CSS and JavaScript to develop features for desktop platforms.
- Produced websites compatible with multiple browsers.
- Designed and updated layouts to meet usability and performance requirements.

Projects

Web Content Management System (Group-Project)

- application that enables users to create, manage, organize, and publish digital content on websites without requiring advanced technical skills. It simplifies the process of creating and

maintaining websites, allowing users to focus on the content itself rather than the underlying technical complexities.

Public Feedback

- users can insert a feedback by using hashtag to refer to the company e.g(#Tim's) then it will show to the public feedback and other users will be able to see it.

Mini-Chat

- it allows users to register and join the public chat where they will be able to see all the messages sent by different users.

DevFinder

- it is an app that allows users to search for Github users by their username using an Api.

Where in the world?

- It is an app that allows users to search for a country(using api) and details about the searched country will be displayed. Users can also click on the border countries and see its information.
